

### **Reduction in fees may be on horizon**

The Department of Business and Professional Regulation (DBPR) issued a Notice of Proposed Rule in July, which reduces the initial application fees for brokers, sales associates and school instructors. Fees, which are authorized in chapters 475 and 455, Florida Statutes, would be reduced under Rule 61J2-1.01, License Fees and Examination Fees, Florida Administrative Code.

The proposed reduction in fees includes lowering the initial broker and sales associate license fee from \$20.00 to \$14.75 and the application fee for school instructors from \$20.00 to \$14.75. The remainder of fees required under the FAC rule will remain the same.
